b. Cover and Security Problems in Connection with [REDACTED]

25X1A6B

25X1A9A

As indicated a week ago, the situation probably is not particularly critical, since the stories that have apparently been put out on our people are quite concerned with both the general aspects of [REDACTED] activities and his services to the Government.

c. Security Check [REDACTED]

25X1A6A

[REDACTED] reports belatedly that on 23 March 1959 their [REDACTED] office was visited by two members of the Office of Security who made a thorough security check of walls and phones. The results of this check were negative. This check was made at our specific request in connection with the number of telephone conversations between here and [REDACTED] and the critical nature of the matter.
